Tom and Kathy, see the attached email from the city manager to the DEQ. The city has not heard back from the DEQ in response to the city's emails from June and July of last year, so the city manager sent this email after I reached out to him when I received your email.

The city is prepared to move forward with the ordinance. Let me know if you would like me to do anything else. Perhaps you can follow up with the DEQ as well.

Subject: RE: NBIA OU1 - proposed ordinance

John, I hope this finds you well.

,

The EPA project manager and I are interested in the institutional controls component of the Operable Unit 1 remedy at the North Bronson Site. Do you have a draft of the ordinance you could share with me? Also, has there been any progress in discussions with MDEQ on this topic since our exchange last summer?

Please note that Ms. Kathy Meier has taken over project manager responsibility from Tim Maley since our exchange of messages, below.

Thanks,

Tom M. Williams

Tom,

The City is waiting for a response from the DEQ on a couple issues. I've attached an email thread that provides you with the status of that communication with the DEQ.

Feel free to contact me if you have follow up questions.

Subject: NBIA OU1 - proposed ordinance

John, to confirm a voice mail message I left you earlier this afternoon, I am working with Tim Maley of EPA Region 5 on the North Bronson Industrial Area Site, and I write to determine the status of the City of Bronson's efforts to adopt an ordinance in connection with the EPA, Michigan Department of Environmental Quality, and settling parties' remedial activities at the Site. You're welcome to reply to this message, or call me at the number provided below. Please note that I will be away from my office after this evening, to return Wednesday, July 27th.

Sincerely,

Tom M. Williams
